

Testimonial – Dr. Ashwini Zalani (Batch 2007)

I am proud to be an alumnus of Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital, Ahilyanagar, an institution that has significantly contributed to my academic development and professional growth.

The institution is progressing under the able leadership of Dean Dr. Sunil Natha Mhaske and Director Dr. Abhijit Diwate, whose commitment to strengthening medical education and healthcare services continues to enhance the institution's reputation and standards.

The well-maintained campus surrounded by natural greenery provides an ideal atmosphere for learning and personal development. The peaceful environment, along with excellent academic facilities, encourages students to focus on their studies and professional training.

A major strength of the institution lies in its experienced and dedicated faculty members, who play an essential role in guiding students through both academic learning and clinical training. Their constant support and mentorship help students develop strong medical knowledge, practical skills, and professional confidence.

The hospital is known for its significant patient load, which allows students to gain valuable hands-on clinical experience and exposure to a wide range of medical conditions. Such extensive clinical training is instrumental in preparing students for real-world medical practice.

The hospital infrastructure is well organized and equipped with modern facilities, ensuring efficient patient care while also providing an excellent learning platform for medical students and residents.

In addition, the institution maintains a safe and secure campus environment, supported by efficient administrative systems and proper security arrangements that ensure a comfortable and disciplined atmosphere for students.

My experience at this institution has been truly enriching. The strong academic foundation, clinical exposure, and supportive environment have played a crucial role in shaping my professional journey. I remain sincerely grateful to the institution for the knowledge, values, and opportunities it has provided.

Dr. Ashwin Zalani

MD Psychiatry

Batch 2007
