

Testimonial – Dr. Javed Hussain (Batch 2007)

Being an alumnus of Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital, Ahilyanagar is a source of great pride and gratitude for me. The institution played an essential role in shaping my academic understanding and clinical perspective during the formative years of my medical training.

The college continues to flourish under the dedicated leadership of Dean Dr. Sunil Natha Mhaske and Director Dr. Abhijit Diwate, whose vision and commitment toward advancing medical education and healthcare services have contributed significantly to the institution's growth and reputation.

One of the distinctive features of the institution is its expansive campus surrounded by natural greenery, which provides a calm and conducive environment for learning. This setting encourages students to focus on their academic pursuits while promoting overall personal development.

The institution is supported by highly skilled and experienced faculty members who are deeply committed to nurturing the next generation of medical professionals. Their mentorship and clinical guidance helped develop strong fundamentals, practical skills, and professional confidence.

The hospital also benefits from a substantial and diverse patient load, offering students the opportunity to gain meaningful hands-on clinical experience. Exposure to a wide variety of medical and surgical conditions plays a crucial role in strengthening clinical decision-making and practical competence.

In addition, the institution is equipped with modern hospital infrastructure and well-organized healthcare facilities, ensuring efficient patient care while providing an excellent platform for clinical learning and training.

The campus also maintains a safe, well-regulated, and disciplined environment, supported by effective administrative systems and security arrangements that help students concentrate fully on their academic and professional growth.

Looking back, my time at this institution was both enriching and transformative. The academic training, clinical exposure, and professional values I gained here continue to guide my career in orthopaedics. I remain sincerely thankful to the institution for the strong foundation it provided.
