

Testimonial – Dr. Sandip Sonsare (Batch 2007)

I feel privileged to be an alumnus of Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital, Ahilyanagar, an institution that has played an important role in shaping my academic knowledge and professional development in the field of medicine.

The institution is progressing under the dynamic leadership of Dean Dr. Sunil Natha Mhaske and Director Dr. Abhijit Diwate, whose vision and dedication towards strengthening medical education and healthcare services have greatly contributed to the institution's growth and reputation.

The college campus is beautiful, spacious, and surrounded by natural greenery, creating a peaceful and motivating environment for students to learn and grow. Such an atmosphere greatly enhances focus, discipline, and academic engagement.

A key strength of the institution is its experienced and highly supportive faculty, who consistently guide students with dedication and encourage them to develop strong clinical skills and professional values. Their mentorship played a significant role in building our confidence and competence in patient care.

The hospital is known for its substantial patient inflow, which provides students with valuable opportunities to gain practical clinical exposure and hands-on experience across various medical specialties. This extensive clinical training is essential for developing real-world medical expertise.

The institution also offers well-established hospital infrastructure and organized healthcare facilities, ensuring quality patient care while simultaneously providing a robust learning platform for medical students and residents.

In addition, the campus maintains a safe and secure environment with proper administrative support and security arrangements, which helps students focus on their academic and professional responsibilities.

My time at this institution was both enriching and transformative. The strong academic foundation, excellent clinical exposure, and supportive environment have significantly contributed to my journey as a medical professional. I remain grateful to the institution for the knowledge, discipline, and values it has imparted.

Dr. Sandip Sonsare

MD Paediatrics, Director (Ankur Balrog)

Batch – 2007
