

Testimonial – Dr. Sayali Kulkarni (Batch 2007)

My association with Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital, Ahilyanagar has been a significant milestone in my academic and professional journey. The institution provided me with a strong foundation in medical education while nurturing the values of professionalism, discipline, and dedication to healthcare.

The continued progress of the institution under the leadership of Dean Dr. Sunil Natha Mhaske and Director Dr. Abhijit Diwate reflects their commitment to advancing medical education and strengthening healthcare services. Their guidance and strategic vision have helped the institution grow as a center of academic excellence and quality patient care.

The well-structured campus surrounded by natural greenery creates a welcoming and motivating environment for students. This peaceful setting, combined with excellent academic facilities, encourages focused learning and personal development.

A notable strength of the institution is its highly knowledgeable and supportive faculty, who consistently guide students in developing both academic competence and professional integrity. Their mentorship and dedication contribute greatly to shaping confident and responsible healthcare professionals.

The hospital offers substantial clinical exposure due to its large and diverse patient population, allowing students to gain practical experience and develop a deeper understanding of healthcare delivery and patient management.

The institution also provides comprehensive hospital infrastructure with well-equipped departments and organized healthcare systems, ensuring efficient patient care while offering valuable learning opportunities for students.

Furthermore, the campus maintains a secure and well-managed environment, supported by strong administrative systems and safety measures that ensure a comfortable and disciplined atmosphere for students and staff.

Looking back, my time at this institution was extremely valuable. The knowledge, experiences, and professional values I gained here continue to influence my career in healthcare administration. I remain sincerely appreciative of the opportunities and strong foundation provided by this esteemed institution.
