

Testimonial – Dr. Shritej Jejekar (Batch 2006)

I feel deeply honored to be counted among the alumni of Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital, Ahilyanagar. My years at this institution were instrumental in shaping my academic outlook, clinical understanding, and professional values in the field of medicine.

The institution continues to move forward under the thoughtful leadership of Dean Dr. Sunil Natha Mhaske and Director Dr. Abhijit Diwate. Their dedication to maintaining high standards in medical education, healthcare delivery, and institutional development has greatly strengthened the reputation and growth of the college and hospital.

One of the most admirable aspects of the institution is its well-designed campus surrounded by natural beauty, which creates a peaceful and inspiring environment for students. Such an atmosphere greatly contributes to focused learning and encourages intellectual growth.

The college has always been supported by knowledgeable and committed faculty members who invest significant effort in mentoring students. Their guidance and encouragement played an important role in helping us develop strong academic fundamentals and practical clinical competence.

A remarkable advantage of training at this institution is the high patient inflow, which provides students with excellent clinical exposure and hands-on experience. Managing a wide spectrum of clinical cases helps students build confidence and refine their diagnostic and management skills.

The hospital also provides robust infrastructure and organized healthcare facilities, which support both quality patient care and effective medical training. The availability of well-equipped departments and diagnostic services enhances the overall learning experience.

Furthermore, the institution ensures a secure, disciplined, and supportive campus environment, supported by efficient administration and proper security systems, allowing students to pursue their studies in a safe and encouraging setting.

My experience at this institution has been truly valuable. The knowledge, discipline, and professional ethics I gained here continue to guide me throughout my medical career. I remain sincerely grateful for the strong foundation and opportunities provided by this esteemed institution.

Dr. Shritej Jejekar
